

2017 Annual Report

Dear Friends,

OCD Washington (OCDWA) continues to serve individuals and families affected by OCD and spectrum disorders. Through our education, community building and compassion, OCDWA seeks to increase understanding of the disorder and strengthen support systems throughout the state of Washington.

This past year OCDWA has grown its membership and it's Board of Directors. The arts community in Seattle has been active in promoting mental health awareness using performance work. Education events for clinicians and the community have been well received.

This year we are focusing on increasing our funding revenue and expanding our membership throughout the entire state. We have started a conversation with National Alliance on Mental Illness (NAMI) about joining forces to further promote OCD and spectrum disorders awareness.

OCD Washington is grateful for the support we have received from IOCDF and we look forward to working with IOCDF in the upcoming year!

Sincerely,

A handwritten signature in blue ink, consisting of several loops and a long horizontal stroke extending to the right.
